

IEC COMMUNITY COUNCIL

Ensuring Community Based Voices are Heard in Environmental Policy

About Us

The IEC Community Council is a venue for place-based organizations to stay updated with one another and projects they are currently working on. Members will be able to hear directly from each other and work collectively on intersecting problems. IEC is here to listen and learn how we can most effectively support you.

Membership

The Community Council is a program for IEC Affiliate Members. Those members who are place-based and predominantly volunteer-led will gain access to free IEC Affiliate Membership by participating in this group.

IEC members vote on our policy priorities, have access to legislative updates, IEC's Annual Meeting, strategic & operational assistance on environmental campaigns and more.

At IEC we are building power for people and the environment. We cannot do that without the voices of community-based organizations.

Member Benefits

Strategy Development

Contribute to IEC policy development and inform our policy strategy

Showcase Your Organization

Showcase your organization's hard work, i.e. social media collaboration, site tours, info booths, etc.
